CHARLOTTESVILLE. SUDDEN DEATH - DROUGHT-FRUIT - WHEAT AND OATS-THE RAPIDAN AND CHARLOTTES-VILLE RAILROAD-MILLER-SCHOOL INAUGU-

RATION-RELIGIOUS. [Correspondence of the Richmond Dispatch.]

JULY, 22, 1878. A little girl, daughter of Mr. William H. Crockford, agent of the Virginia Midland railroad at this point, died suddenly last Saturday from some unknown cause. It seems that she had laid down to take her usual afternoon nap, and after some minutes had clapsed an attempt to awaken her discovered the shocking fact that she was dead. Everything that was at all available was done to restore her to life, but in vain. We are suffering much for want of rain. The gardens are parched and the field crops

are beginning to show signs of drought. The heat for the past twenty days has been intense, the thermometer at times ranging from 90 to 106°. People have been unable to sleep at night-a rare thing in this section. Rain has fallen copiously all around us, in some instances in less than a mile of Charlottesville. The dry weather has a bad effect upon the cows, whereby our milk and butter rations are cut short.

The fruit crops are pretty fair all over the county, except peaches, which were winter-killed. Grapes, which are represented as very fine, are beginning to ripen, and I was told by a prominent vineyardist to-day that he would begin to ship to northern markets next week. Apples are unusually abundant.

The wheat crop, upon which such great expectations rested, has turned out to be short-one third to one half less than estimated. The straw was good, the heads were large, but there was little in them. The oat crop has perhaps never been excelled. I have seen oats fifty-eight inches long, and have been told of some seventyfive inches in length, full-headed and sound. On some farms fine crops have come of vol-

to justify such a step. In the mean time I learn that the farm-houses in the vicinity of Charlottesville are crowded to their utmost capacity with guests from the lower country. It has of late years become quite the custom to receive a few "summer boarders," and I imagine it affords no objectionable addition to the household exchequer.

The coming event is the inauguration services of the Miller Manual-Labor School, which are to take place on the 7th of August. There will doubtless be a very large crowd in attendance. Governor Holliday, Dr. Ruffner, and other distinguished men are expected to address the multitude. The Monticello Guard will go in camp there, music is on the programme. Of course your readers know that the Miller Manual-Labor School is an institution endowed by the late Samuel Miller, of Lynchburg, with a million dollars, more or less, for the purpose of educating the orphan boys of his native county in the industrial arts. Boys will be taken absolute control of by the institution-clothed, fed, and instructed at directly. the expense of the school. It is a beneficent work. The Four Per Cents Very Popular.

[By telegraph to the Tribune.] Washington, July 21 .- The popular subscriptions to the four-per-cent. loan, which began in February last, now aggregate \$37,000,000. As an evidence of the popular character of the bonds, the Treasury officials call attention to the large number of registered bonds of the denominations of \$50 and \$100. The increased subscriptions of the past few days, it is thought, indicate that the people in general are beginning to realize the advantages of this loan, and are thus investing their surplus earnings. This is also regarded as an important check to noocratic party, as it increases the number of persons interested in maintaining the inviolability of the public credit.

In addition to the popular subscriptions, the Syndicate has taken \$76,000,000, which makes \$113,000,000 of the total of \$700,000,-000 taken in about five months.

Representative Danford, of Ohio, testified that he was a member of the Morrison committee that visited New Orleans, and there met James E. Anderson, whom he first knew as a Washington correspondent of a newspaper in his district. He had a full conversation with Anderson about East Feliciana affairs. It was voluntary on the part of Anderson, who spoke generally of the condition of the parish, and its being the worst bulldozed parish of the State. He also spoke of having made a protest on which the vote of East Feliciana was thrown out. He spoke of having put in circulation a story that during the period of registration he came to New Orleans and informed the Republican committee, including Kellogg, that his parish was going Democratic, the colored voters being largely on that side, and that he had been advised by Kellogg and the Republican committee that he should either not return to the parish at all or come away and make such a protest as would throw the parish out. The last election was peaceable and quiet. Letters were read from Thomas I. The Occupation of Batoum, &c. LONDON, July 23.—A Reuter's telegram from Constantinople says that Prince Labanoff, Russian Ambassador, has received no instructions in regard to the occupation of Batoum, but states that the Russians will overcome the resistance of the Lazis if the Turkish forces retire. The evacuation of the forts around Shumla continues. The Turks still promise to surrender the place as soon as the Russians retire from the position they hold near Constantinople.

APOLLINARIS WATER. APOLLINARIS NATURAL MINERAL WATER.

HIGHLY EFFERVESCENT.

APPROVED by the Academie de Medecine of France, and its sa'e in France authorized by special order of the French Government.

Recommended by the highest MEDICAL AU-THORITIES in New York as " A delightful beverage." " Far superior to Vichy, Seltzer, or any other."

" Most grateful and refreshing." " Absolutely pure and wholesome; superior to all for daily use; free from all the objections urged against Croton and Artificially-acrated waters."

"Impregnated only with its own gas." " Useful and very agreeable." "Healthful and well suited for Dyspepsia and ases of acute disease."

" Mildly antacid; agrees well with dyspeptics and where there is a gouty diathesis." "By far the most agreeable, alone or mixed with

wine; useful in Catarrhs of Stomach or Bladder, and in Gout." " Not only a luxury, but a necessity."

To be had of all wine merchants, grocers, druggists, and mineral-water dealers throughout the United States, and wholesale of FREDERICK DE BARY & CO.,
